

Kurzvorstellung Export BibliothecaNext

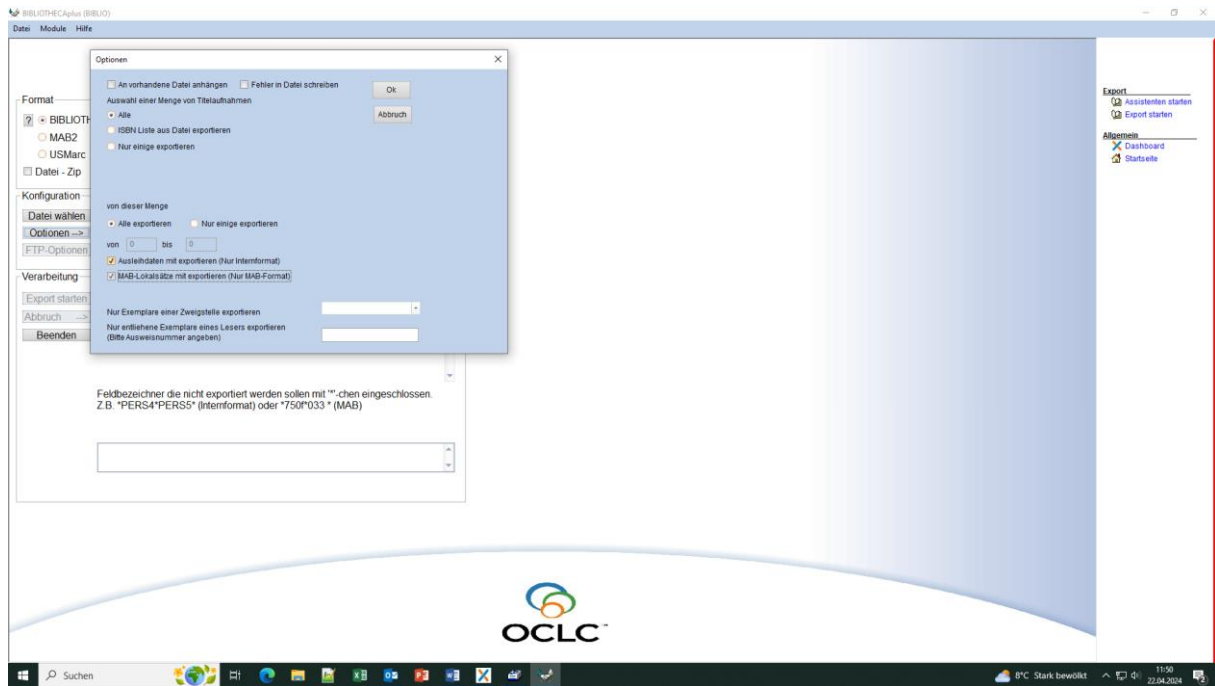

1. Aufruf Export in BibliothecaNext

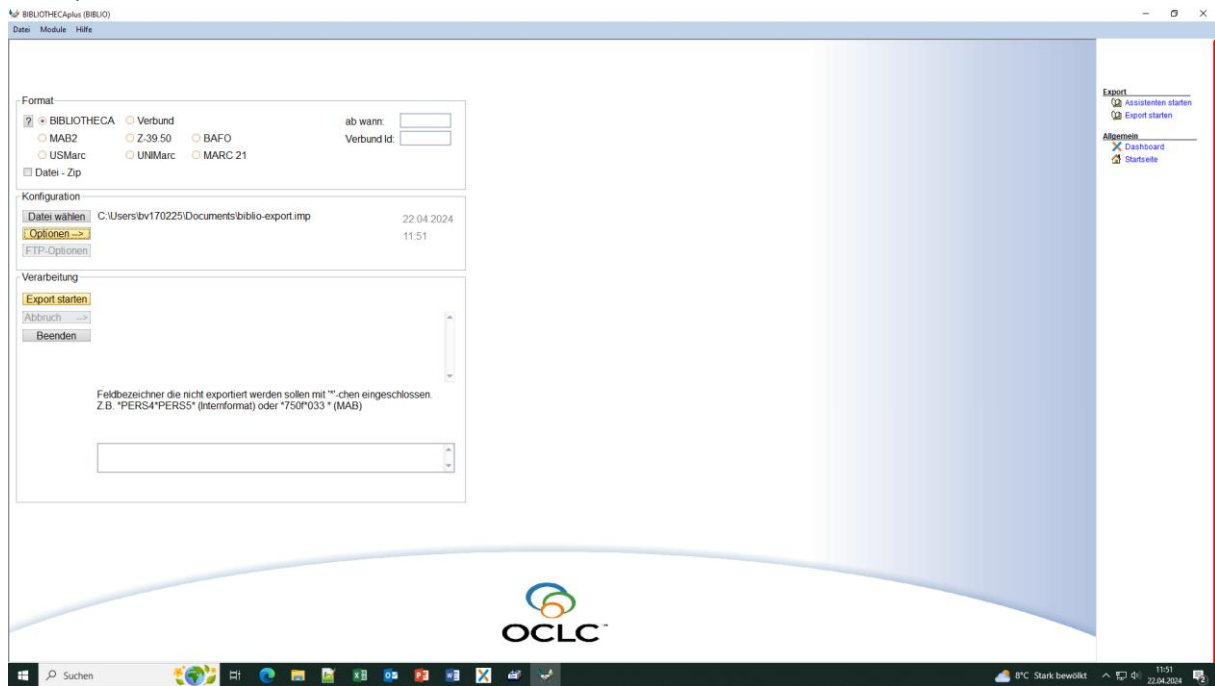

2. Zieldatei auswählen

3. Optionen für den Export auswählen

4. Export starten

5. Ablauf des Exports (ca. 3 Minuten)

The screenshot shows the 'BIBLIOTHECA' export configuration window. The 'Format' section has 'BIBLIOTHECA' selected. The 'Datei - Zip' checkbox is unchecked. The 'Konfiguration' section shows the file path 'C:\Users\sv170225\Documents\biblio-export.imp' and the date '22.04.2024'. The 'Verarbeitung' section has 'Export starten' highlighted. A message at the bottom states: 'Feldbezeichner die nicht exportiert werden sollen mit ""-chen eingeschlossen. Z.B. *PERS4*PERS5* (Interformat) oder *750*033* (MAB)'. The OCLC logo is visible at the bottom center of the window.

The screenshot shows the 'BIBLIOTHECA' export configuration window after the export process is complete. The 'Verarbeitung' section now shows 'Exportiert ->'. A message box is displayed with the text: 'Der BIBLIOTHECA Interformat Export ist fertig'. The OCLC logo is visible at the bottom center of the window.
